BIO-RAD

We've Narrowed it Down

Important Facts:

Your Bio-Rad instrument is a high-quality, carefully engineered product. For best performance and extended life, it requires regular, expert service. With a Bio-Rad Service Agreement, you'll receive just that — expert service! And you won't have to worry about the cost of replacement parts and labor on operating components that fail due to normal use. You never have to settle for a product that gives you less than peak performance.

Instruments Covered:

Bio-Rad Service Agreements are available on a wide range of Bio-Rad products, from PowerPacs to image analysis equipment.

On-Site Service:

Our Field Service Engineers will come to you, at your site.

Mail-In Service:

An economical alternative to the on-site Service Agreement is our mail-in Service Agreement. If service is necessary, the repair will be handled via the mail system or common carrier.

Factory-Approved Parts:

We use only factory-approved, top-quality replacement parts.

Factory-Trained Engineers:

Every Service Engineer receives comprehensive training.

Preventive Maintenance:

Preventive maintenance will extend the life of your instrument, reduce downtime and ensure optimal performance.

Less Paperwork and Less Red Tape:

With a Bio-Rad Service Agreement, you only need to process one purchase order for an entire year of coverage.

An Easy Budget:

With a Bio-Rad Service Agreement, you are able to budget your expenses for the entire year at one time.

Knowledgeable Help:

Our Technical Service staff will assist you over the phone to ensure that you are receiving optimal performance from your Bio-Rad product.

Service Areas:

We provide service in the Continental US, Puerto Rico, Alaska, Hawaii, Canada and selected regions of Latin America.

Savings:

You can purchase a Bio-Rad Service Agreement for just a fraction of the cost of a service call or equipment replacement.
