

Unity for the Molecular Lab

Powering Exceptional QC Data Management

BIO-RAD

Take Your Molecular QC Testing to the Next Level With Unity

Want to better assess your lab's analytical performance to report the most reliable and precise results?

Wonder how your Molecular QC results compare with other labs?

Bio-Rad's Unity Data Management solution is designed to monitor the performance of your Molecular QC program. Assessment tools and easy-to-read reports help increase your performance, streamline workflow, and allow you to report results with confidence.

Experience the Advantages of Unity

Are you spending your time

manually analyzing QC data with outdated programs?

Optimize lab **Performance.**

Automatically track QC performance over time

Increase performance with easy-to-read reports, efficient troubleshooting, early detection of system errors and automation.

- Automate system performance calculations and streamline manual processes
- Automatically import QC data and review with easy-to-read reports
- Check performance with robust data analysis charts and implement QC rules
- Run validations with comprehensive audit trails

Can you proactively detect errors

that may lead to troubleshooting, assay repeats and workflow delays?

Improve laboratory **Workflow.**

Track Bias and Imprecision

Proactively detect unnoticed shifts and trends in your systems that may cause system downtime and delays in reporting patient results.

- Identify errors and bias in your measurement procedures
- Determine if the cause is a reagent/calibrator reformulation, standardization change or instrument software update

How do you compare with other labs

running the same QC lot on the same platform?

Confidence in results.

Compare your results with other labs

Benefit from a comprehensive overview of your monthly and cumulative QC performance compared to peer and method consensus groups.

- Evaluate the performance of your lab's procedure by comparing your results to other laboratories worldwide or within your affiliated network
- View real-time peer data to determine if your lab errors are a result of an instrument, software or system failure

Maximize Unity with Bio-Rad's Molecular Quality Controls

Amplichek I

Amplichek II

Use Bio-Rad's Molecular Quality Controls to unlock the power of Unity Data Management

Common Viral Load Assays

Amplichek I

Analytes

Hepatitis B Virus (HBV)
Hepatitis C Virus (HCV)
Human Immunodeficiency Virus Type 1 (HIV-1)

Ordering Information

12000527	Negative	10 x 1.2 mL
12000528	Level 1	10 x 1.2 mL
12000529	Level 2	10 x 1.2 mL
12000530	Level 3	10 x 1.2 mL
12000531	4 Level MiniPak (one of each level)	4 x 1.2 mL

Healthcare Associated Infections (HAI)

Amplichek II

Analytes

Clostridium difficile (C diff.)
Methicillin-resistant *Staphylococcus aureus* (MRSA)
Methicillin-sensitive *Staphylococcus aureus* (MSSA)
Vancomycin-resistant *enterococci* (VRE or vanR)

Ordering Information

12000201	Negative	10 x 0.2 mL
12000202	Level 1	10 x 0.2 mL
12000203	Level 2	10 x 0.2 mL
12000204	Level 3	10 x 0.2 mL
12000575	Negative MiniPak	1 x 0.2 mL
12000576	Level 1 MiniPak	1 x 0.2 mL
12000577	Level 2 MiniPak	1 x 0.2 mL
12000578	Level 3 MiniPak	1 x 0.2 mL

Sexually Transmitted Infections (STI)

Amplichek STI

Analytes

Chlamydia trachomatis (CT)
Human Papillomavirus (HPV)
Neisseria gonorrhoeae (NG or GC)

Ordering Information

12000991	Negative	10 x 0.2 mL
12000992	Positive	10 x 0.2 mL
12000993	Negative MiniPak	1 x 0.2 mL
12000994	Positive MiniPak	1 x 0.2 mL

Additional products for CT/GC testing

AmpliTrol CT/GC

Unassayed quality control for DNA amplification assays. Suitable for BD ProbeTec ET CT/NG.

Ordering Information

00126	Single Level	10 x 1.2 mL
-------	--------------	-------------

AmpliPROBE CT/GC

Unassayed quality control for nucleic acid amplification assays. Suitable for Hologic Aptima CT and NG assays.

Ordering Information

00138	Single Level	10 x 1.2 mL
-------	--------------	-------------

AmpliClear

Unassayed, non-reactive quality control for CT/GC testing.

Ordering Information

00127	Single Level	10 x 1.2 mL
-------	--------------	-------------

Visit QCNet.com/molecular to request a MiniPak for evaluation today.
