

# SAFETY DATA SHEET

This safety data sheet was created pursuant to the requirements of:  
Canada WHMIS 2015 which includes the amended Hazardous Products Act (HPA) and the Hazardous Products Regulation (HPR)

Revision date 20-Mar-2025

Revision Number 42

## 1. Identification

### Product identifier

**Product Name** Geenius™ HIV 1/2 Supplemental Assay - Buffer

### Other means of identification

**Catalog Number(s)** 12006882

### Recommended use of the chemical and restrictions on use

**Recommended use** In-vitro laboratory reagent or component  
Restricted to professional users  
Use according to package label instructions

**Restrictions on use** No information available

### Details of the supplier of the safety data sheet

#### Corporate Headquarters

Bio-Rad Laboratories Inc.  
1000 Alfred Nobel Drive  
Hercules, CA 94547  
USA

#### Manufacturer Address

Bio-Rad Laboratories  
14620 NE N Woodinville Way  
Woodinville, WA 98072  
USA

#### Legal Entity / Contact Address

Bio-Rad Laboratories (Canada) Ltd.  
2403 Guenette  
Montreal, Quebec H4R 2E9  
Canada

**Technical Service** 1-800-361-1808  
CSD\_Techsupport@bio-rad.com

### Emergency telephone number

**24 Hour Emergency Phone Number** CHEMTREC Canada:1 (800) 424-9300

## 2. Hazard(s) identification

### Classification

|                           |            |
|---------------------------|------------|
| Respiratory sensitization | Category 1 |
| Skin sensitization        | Category 1 |
| Reproductive toxicity     | Category 2 |

### Label elements

#### **Danger**

#### **Hazard statements**

May cause allergy or asthma symptoms or breathing difficulties if inhaled  
May cause an allergic skin reaction  
Suspected of damaging fertility or the unborn child

**Precautionary Statements - Prevention**

Wear protective gloves/protective clothing/eye protection/face protection  
In case of inadequate ventilation wear respiratory protection

**Precautionary Statements - Response**

IF exposed or concerned: Get medical advice/attention

**Skin**

IF ON SKIN: Wash with plenty of water and soap  
If skin irritation or rash occurs: Get medical advice/attention

**Inhalation**

IF INHALED: Remove person to fresh air and keep comfortable for breathing  
If experiencing respiratory symptoms: Call a POISON CENTER or doctor

**Precautionary Statements - Disposal**

Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Other information**

Contains animal source material. (Goat). (Cattle). (Chicken).

### 3. Composition/information on ingredients

**Substance**

Not applicable.

**Mixture**

| Chemical name                                                                  | CAS No.     | Weight-%     | Hazardous Material<br>Information Review Act<br>registry number<br>(HMIRA registry #) | Date HMIRA filed and<br>date exemption granted<br>(if applicable) |
|--------------------------------------------------------------------------------|-------------|--------------|---------------------------------------------------------------------------------------|-------------------------------------------------------------------|
| Poly(oxy-1,2-ethanediyl),<br>alpha.-(4-nonylphenyl)-.omega.-hydroxy-, branched | 127087-87-0 | 1 - 2.5      | -                                                                                     |                                                                   |
| Streptomycin sulfate                                                           | 3810-74-0   | 0.1 - 0.249  | -                                                                                     |                                                                   |
| Gentamicin, sulfate (salt)                                                     | 1405-41-0   | 0.1 - 0.249  | -                                                                                     |                                                                   |
| Sodium azide                                                                   | 26628-22-8  | 0.01 - 0.099 | -                                                                                     |                                                                   |

### 4. First-aid measures

**Description of first aid measures**

|                                           |                                                                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>General advice</b>                     | Show this safety data sheet to the doctor in attendance.                                                                                                                                                                                                                                                                                                         |
| <b>Inhalation</b>                         | May cause allergic respiratory reaction. If breathing has stopped, give artificial respiration. Get medical attention immediately. Remove to fresh air. Avoid direct contact with skin. Use barrier to give mouth-to-mouth resuscitation.                                                                                                                        |
| <b>Eye contact</b>                        | Rinse thoroughly with plenty of water for at least 15 minutes, lifting lower and upper eyelids. Consult a physician.                                                                                                                                                                                                                                             |
| <b>Skin contact</b>                       | Wash with soap and water. May cause an allergic skin reaction. In the case of skin irritation or allergic reactions see a physician.                                                                                                                                                                                                                             |
| <b>Ingestion</b>                          | May produce an allergic reaction. Do NOT induce vomiting. Clean mouth with water and drink afterwards plenty of water. Never give anything by mouth to an unconscious person. Get immediate medical advice/attention.                                                                                                                                            |
| <b>Self-protection of the first aider</b> | Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination. Avoid contact with skin, eyes or clothing. Avoid direct contact with skin. Use barrier to give mouth-to-mouth resuscitation. Use personal protective equipment as required. See section 8 for more information. |

**Most important symptoms and effects, both acute and delayed**

|                 |                                                                                                                                                                                   |
|-----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Symptoms</b> | May cause allergy or asthma symptoms or breathing difficulties if inhaled. Coughing and/ or wheezing. Itching. Rashes. Hives. Prolonged contact may cause redness and irritation. |
|-----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

**Indication of any immediate medical attention and special treatment needed**

|                           |                                                                        |
|---------------------------|------------------------------------------------------------------------|
| <b>Note to physicians</b> | May cause sensitization in susceptible persons. Treat symptomatically. |
|---------------------------|------------------------------------------------------------------------|

**5. Fire-fighting measures**

|                                                       |                                                                                                                                       |
|-------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| <b>Suitable Extinguishing Media</b>                   | Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.                               |
| <b>Unsuitable extinguishing media</b>                 | No information available.                                                                                                             |
| <b>Specific hazards arising from the chemical</b>     | Product is or contains a sensitizer. May cause sensitization by inhalation and skin contact. May cause sensitization by skin contact. |
| <b>Explosion data</b>                                 |                                                                                                                                       |
| <b>Sensitivity to mechanical impact</b>               | None.                                                                                                                                 |
| <b>Sensitivity to static discharge</b>                | None.                                                                                                                                 |
| <b>Special protective equipment for fire-fighters</b> | Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment.    |

**6. Accidental release measures****Personal precautions, protective equipment and emergency procedures**

|                             |                                                                                                                                                                                                          |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Personal precautions</b> | Avoid contact with skin, eyes or clothing. Ensure adequate ventilation. Use personal protective equipment as required. Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak. |
| <b>Other information</b>    | Refer to protective measures listed in Sections 7 and 8.                                                                                                                                                 |

**Methods and material for containment and cleaning up**

**Methods for containment** Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up** Pick up and transfer to properly labeled containers.

**7. Handling and storage****Precautions for safe handling**

**Advice on safe handling** Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes or clothing. Ensure adequate ventilation. Provide extract ventilation to points where emissions occur. In case of insufficient ventilation, wear suitable respiratory equipment. Do not eat, drink or smoke when using this product. Remove contaminated clothing and shoes. Take off contaminated clothing and wash before reuse.

**Conditions for safe storage, including any incompatibilities**

**Storage Conditions** Keep containers tightly closed in a dry, cool and well-ventilated place. Store locked up. Keep out of the reach of children.

**8. Exposure controls/personal protection****Working area parameters, subject to mandatory control (MAC or TSEL)****Exposure Limits**

| Chemical name              | Alberta                                                                             | British Columbia                                     | Ontario                                      | Quebec                                               |
|----------------------------|-------------------------------------------------------------------------------------|------------------------------------------------------|----------------------------------------------|------------------------------------------------------|
| Sodium azide<br>26628-22-8 | Ceiling: 0.29 mg/m <sup>3</sup><br>Ceiling: 0.11 ppm<br>STEL: 0.3 mg/m <sup>3</sup> | Ceiling: 0.29 mg/m <sup>3</sup><br>Ceiling: 0.11 ppm | CEV: 0.29 mg/m <sup>3</sup><br>CEV: 0.11 ppm | Ceiling: 0.29 mg/m <sup>3</sup><br>Ceiling: 0.11 ppm |

**Appropriate engineering controls**

**Engineering controls** Showers  
Eyewash stations  
Ventilation systems.

**Individual protection measures, such as personal protective equipment**

**Eye/face protection** Wear safety glasses with side shields (or goggles).

**Hand protection** Wear suitable gloves.

**Skin and body protection** Wear suitable protective clothing.

**Respiratory protection** No protective equipment is needed under normal use conditions. If exposure limits are exceeded or irritation is experienced, ventilation and evacuation may be required.

**General hygiene considerations** Avoid contact with skin, eyes or clothing. Wear suitable gloves and eye/face protection. Do not eat, drink or smoke when using this product. Remove and wash contaminated clothing and gloves, including the inside, before re-use. Wash hands before breaks and immediately after handling the product.

## 9. Physical and chemical properties

### Information on basic physical and chemical properties

|                |                          |
|----------------|--------------------------|
| Physical state | Liquid                   |
| Appearance     | Liquid                   |
| Color          | yellow                   |
| Odor           | Low                      |
| Odor threshold | No information available |

| <u>Property</u>                         | <u>Values</u>     | <u>Remarks • Method</u> |
|-----------------------------------------|-------------------|-------------------------|
| pH                                      | 9.5               |                         |
| Melting point / freezing point          | No data available | None known              |
| Initial boiling point and boiling range | No data available | None known              |
| Flash point                             | No data available | None known              |
| Evaporation rate                        | No data available | None known              |
| Flammability                            | No data available | None known              |
| Flammability Limit in Air               |                   | None known              |
| Upper flammability or explosive limits  | No data available |                         |
| Lower flammability or explosive limits  | No data available |                         |
| Vapor pressure                          | No data available | None known              |
| Relative vapor density                  | No data available | None known              |
| Relative density                        | No data available | None known              |
| Water solubility                        | Miscible in water |                         |
| Solubility in other solvents            | No data available | None known              |
| Partition coefficient                   | No data available | None known              |
| Autoignition temperature                | No data available | None known              |
| Decomposition temperature               |                   | None known              |
| Kinematic viscosity                     | No data available | None known              |
| Dynamic viscosity                       | No data available | None known              |
| <u>Other information</u>                |                   |                         |
| Explosive properties                    | Not applicable.   |                         |
| Oxidizing properties                    | Not applicable.   |                         |
| Softening point                         | Not applicable    |                         |
| Molecular weight                        | Not applicable    |                         |
| VOC content                             | Not applicable    |                         |

## 10. Stability and reactivity

|                                    |                                                                                                                                                                                           |
|------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity                         | No information available.                                                                                                                                                                 |
| Chemical stability                 | Stable under normal conditions.                                                                                                                                                           |
| Possibility of hazardous reactions | Avoid contact with metals. This product contains sodium azide. Sodium azide can react with copper, brass, lead, and solder in piping systems to form explosive compounds and toxic gases. |
| Conditions to avoid                | None known based on information supplied.                                                                                                                                                 |
| Incompatible materials             | Metals.                                                                                                                                                                                   |
| Hazardous decomposition products   | None known based on information supplied.                                                                                                                                                 |

## 11. Toxicological information

**Information on likely routes of exposure****Product Information**

|                     |                                                                                                                                                                                                                                                        |
|---------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Inhalation</b>   | Specific test data for the substance or mixture is not available May cause sensitization in susceptible persons (based on components).                                                                                                                 |
| <b>Eye contact</b>  | Specific test data for the substance or mixture is not available.                                                                                                                                                                                      |
| <b>Skin contact</b> | Specific test data for the substance or mixture is not available Repeated or prolonged skin contact may cause allergic reactions with susceptible persons (based on components). May cause sensitization by skin contact. Causes mild skin irritation. |
| <b>Ingestion</b>    | Specific test data for the substance or mixture is not available. May cause additional effects as listed under "Inhalation".                                                                                                                           |

**Symptoms related to the physical, chemical and toxicological characteristics**

|                 |                                                                                                                                                                                                                                                                                                |
|-----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Symptoms</b> | Symptoms of allergic reaction may include rash, itching, swelling, trouble breathing, tingling of the hands and feet, dizziness, lightheadedness, chest pain, muscle pain, or flushing. Coughing and/ or wheezing. Itching. Rashes. Hives. Prolonged contact may cause redness and irritation. |
|-----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

**Acute toxicity****Numerical measures of toxicity**

No information available

The following values are calculated based on chapter 3.1 of the GHS document

ATEmix (oral) 57,958.30 mg/kg

**Component Information**

| Chemical name                                                                                     | Oral LD50            | Dermal LD50           | Inhalation LC50               |
|---------------------------------------------------------------------------------------------------|----------------------|-----------------------|-------------------------------|
| Poly(oxy-1,2-ethanediyl),<br>alpha.-(4-nonylphenyl)-.omega.<br>-hydroxy-, branched<br>127087-87-0 | = 1310 mg/kg ( Rat ) | -                     | -                             |
| Streptomycin sulfate<br>3810-74-0                                                                 | = 430 mg/kg ( Rat )  | -                     | -                             |
| Gentamicin, sulfate (salt)<br>1405-41-0                                                           | > 5 g/kg ( Rat )     | -                     | -                             |
| Sodium azide<br>26628-22-8                                                                        | = 27 mg/kg ( Rat )   | = 20 mg/kg ( Rabbit ) | 0.054 - 0.52 mg/L ( Rat ) 4 h |

**Delayed and immediate effects as well as chronic effects from short and long-term exposure**

|                                          |                                                                                    |
|------------------------------------------|------------------------------------------------------------------------------------|
| <b>Skin corrosion/irritation</b>         | Classification based on data available for ingredients. May cause skin irritation. |
| <b>Serious eye damage/eye irritation</b> | Based on available data, the classification criteria are not met.                  |
| <b>Respiratory or skin sensitization</b> | May cause sensitization by inhalation. May cause sensitization by skin contact.    |
| <b>Germ cell mutagenicity</b>            | Based on available data, the classification criteria are not met.                  |
| <b>Carcinogenicity</b>                   | Based on available data, the classification criteria are not met.                  |

The table below indicates whether each agency has listed any ingredient as a carcinogen.

| Chemical name | ACGIH                      | IARC | NTP | OSHA |
|---------------|----------------------------|------|-----|------|
| Sodium azide  | A4 - Not Classifiable as a | -    | -   | -    |

|            |                  |  |  |  |
|------------|------------------|--|--|--|
| 26628-22-8 | Human Carcinogen |  |  |  |
|------------|------------------|--|--|--|

**Legend****ACGIH (American Conference of Governmental Industrial Hygienists)**

A4 - Not Classifiable as a Human Carcinogen

|                                 |                                                                                                                                                                |
|---------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Reproductive toxicity</b>    | Contains a known or suspected reproductive toxin. Classification based on data available for ingredients. Suspected of damaging fertility or the unborn child. |
| <b>STOT - single exposure</b>   | Based on available data, the classification criteria are not met.                                                                                              |
| <b>STOT - repeated exposure</b> | Based on available data, the classification criteria are not met.                                                                                              |
| <b>Aspiration hazard</b>        | Based on available data, the classification criteria are not met.                                                                                              |

**12. Ecological information**

**Ecotoxicity** Harmful to aquatic life.

| Chemical name              | Algae/aquatic plants | Fish                                                                                                                                 | Toxicity to microorganisms | Crustacea |

**Persistence and degradability** No information available.

**Bioaccumulation** There is no data for this product.

**Component Information**

| Chemical name                                                                                  | Partition coefficient |
|------------------------------------------------------------------------------------------------|-----------------------|
| Poly(oxy-1,2-ethanediyl),<br>.alpha.-(4-nonylphenyl)-.omega.-hydroxy-, branched<br>127087-87-0 | 5.669                 |

**Other adverse effects** No information available.

**13. Disposal considerations****Disposal methods**

**Waste from residues/unused products** Flush pipes with water frequently if discarding solutions containing sodium azide into metal piping systems. Dispose of in accordance with local regulations. Dispose of waste in accordance with environmental legislation.

**Contaminated packaging** Do not reuse empty containers.

**14. Transport information**

**TDG** Not regulated

|             |               |
