

# SAFETY DATA SHEET

This safety data sheet was created pursuant to the requirements of:  
Regulation (EC) No. 1907/2006 and Regulation (EC) No. 1272/2008

Revision date 26-Aug-2024

Revision Number 2

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

|                        |                                 |
|------------------------|---------------------------------|
| Product Name           | EQAS Clinical Chemistry Program |
| Catalogue Number(s)    | BC50                            |
| Nanoforms              | Not applicable                  |
| Pure substance/mixture | Mixture                         |

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

|                      |                          |
|----------------------|--------------------------|
| Recommended use      | Proficiency testing      |
| Uses advised against | No information available |

### 1.3. Details of the supplier of the safety data sheet

#### Corporate Headquarters

Bio-Rad Laboratories Inc.  
1000 Alfred Nobel Drive  
Hercules, CA 94547  
USA

#### Manufacturer

Bio-Rad Laboratories Inc.  
9500 Jeronimo Road  
Irvine, California 92618  
USA

#### Legal Entity / Contact Address

The Junction  
Station Road  
Watford, WD17 1ET  
UK

Bio-Rad Laboratories Pvt. Ltd.  
Bio-Rad House  
86-87, Udyog Vihar Phase IV Gurgaon  
122005  
Haryana India

Bio-Rad Laboratories (Pty) Ltd.  
43 Bolton Road  
Parkwood, Johannesburg 2192  
South Africa

EU Representative:  
Bio-Rad  
3 bld Raymond Poincaré  
92430 Marnes-la-Coquette  
France  
Phone: (33) 1-4795-6000

### 1.4. Emergency telephone number

## SECTION 2: Hazards identification

**2.1. Classification of the substance or mixture**

Classification according to

Regulation (EC) No. 1272/2008 [CLP]

|                           |                     |
|---------------------------|---------------------|
| Skin corrosion/irritation | Category 3 - (H316) |
|---------------------------|---------------------|

**2.2. Label elements****Signal word**

Warning

**Hazard statements**

H316 - Causes mild skin irritation

EUH208 - Contains Glutamyltransferase, .gamma.- May produce an allergic reaction.

**Precautionary Statements - EU (§28, 1272/2008)**

P332 + P313 - If skin irritation occurs: Get medical advice/attention

**2.3. Other hazards**

Contains animal source material. (Pig). (Cattle). (Chicken).

Contains human source material and / or potentially infectious components

**SECTION 3: Composition/information on ingredients****3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical name                                                      | Weight-%   | REACH registration number | EC No (EU Index No)         | Classification according to Regulation (EC) No. 1272/2008 [CLP] | Specific concentration limit (SCL) | M-Factor | M-Factor (long-term) |
|--------------------------------------------------------------------|------------|---------------------------|-----------------------------|-----------------------------------------------------------------|------------------------------------|----------|----------------------|
| Sodium chloride<br>7647-14-5                                       | 5 - 10     | Not available             | 231-598-3                   | Not classified                                                  | -                                  | -        | -                    |
| 1-Piperazineethane sulfonic acid, 4-(2-hydroxyethyl)-<br>7365-45-9 | 2.5 - 5    | Not available             | 230-907-9                   | Not classified                                                  | -                                  | -        | -                    |
| Sodium bicarbonate<br>144-55-8                                     | 2.5 - 5    | Not available             | 205-633-8                   | Not classified                                                  | -                                  | -        | -                    |
| Urea<br>57-13-6                                                    | 1 - 2.5    | Not available             | 200-315-5                   | Not classified                                                  | -                                  | -        | -                    |
| L-Lactic acid<br>79-33-4                                           | 0.3 - 0.99 | Not available             | 201-196-2<br>(607-743-00-5) | Skin Corr. 1C (H314)<br>Eye Dam. 1 (H318)<br>(EUH071)           | -                                  | -        | -                    |

**Full text of H- and EUH-phrases: see section 16****Acute Toxicity Estimate**

If LD50/LC50 data is not available or does not correspond to the classification category, then the appropriate conversion value from CLP Annex I, Table 3.1.2, is used to calculate the acute toxicity estimate (ATEmix) for classifying a mixture based on its components

| Chemical name | Oral LD50 mg/kg | Dermal LD50 mg/kg | Inhalation LC50 - 4 hour - dust/mist - mg/L | Inhalation LC50 - 4 hour - vapour - mg/L | Inhalation LC50 - 4 hour - gas - ppm |
|---------------|-----------------|-------------------|---------------------------------------------|------------------------------------------|--------------------------------------|
|---------------|-----------------|-------------------|---------------------------------------------|------------------------------------------|--------------------------------------|

| Chemical name                                                        | Oral LD50 mg/kg | Dermal LD50 mg/kg | Inhalation LC50 - 4 hour - dust/mist - mg/L | Inhalation LC50 - 4 hour - vapour - mg/L | Inhalation LC50 - 4 hour - gas - ppm |
|----------------------------------------------------------------------|-----------------|-------------------|---------------------------------------------|------------------------------------------|--------------------------------------|
| Sodium chloride<br>7647-14-5                                         | 3550            | 10000             | No data available                           | No data available                        | No data available                    |
| 1-Piperazineethanesulfonic acid,<br>4-(2-hydroxyethyl)-<br>7365-45-9 | 2000            | 2000              | No data available                           | No data available                        | No data available                    |
| Sodium bicarbonate<br>144-55-8                                       | 4220            | No data available | No data available                           | No data available                        | No data available                    |
| Urea<br>57-13-6                                                      | 8471            | No data available | No data available                           | No data available                        | No data available                    |
| L-Lactic acid<br>79-33-4                                             | 3730            | 2000              | No data available                           | No data available                        | No data available                    |

This product does not contain candidate substances of very high concern at a concentration  $\geq 0.1\%$  (Regulation (EC) No. 1907/2006 (REACH), Article 59)

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

|              |                                                                                                                                                                                    |
|--------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Inhalation   | Remove to fresh air.                                                                                                                                                               |
| Eye contact  | Contains human source material and / or potentially infectious components. Call a doctor. Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. |
| Skin contact | Wash with soap and water.                                                                                                                                                          |
| Ingestion    | Contains human source material and / or potentially infectious components. Call a doctor.                                                                                          |

### 4.2. Most important symptoms and effects, both acute and delayed

|          |                                                     |
|----------|-----------------------------------------------------|
| Symptoms | Prolonged contact may cause redness and irritation. |
|----------|-----------------------------------------------------|

### 4.3. Indication of any immediate medical attention and special treatment needed

|                 |                                                                            |
|-----------------|----------------------------------------------------------------------------|
| Note to doctors | Contains human source material and / or potentially infectious components. |
|-----------------|----------------------------------------------------------------------------|

## SECTION 5: Firefighting measures

### 5.1. Extinguishing media

|                                |                                                                                                         |
|--------------------------------|---------------------------------------------------------------------------------------------------------|
| Suitable Extinguishing Media   | Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. |
| Large Fire                     | CAUTION: Use of water spray when fighting fire may be inefficient.                                      |
| Unsuitable extinguishing media | Do not scatter spilled material with high pressure water streams.                                       |

### 5.2. Special hazards arising from the substance or mixture

|                                            |                           |
|--------------------------------------------|---------------------------|
| Specific hazards arising from the chemical | No information available. |
|--------------------------------------------|---------------------------|

### 5.3. Advice for firefighters

**Special protective equipment and precautions for fire-fighters** Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment.

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

**Personal precautions** Ensure adequate ventilation.

**For emergency responders** Use personal protection recommended in Section 8.

### 6.2. Environmental precautions

**Environmental precautions** See Section 12 for additional Ecological Information.

### 6.3. Methods and material for containment and cleaning up

**Methods for containment** Do not allow into any sewer, on the ground or into any body of water.

**Methods for cleaning up** Use: Disinfectant. Clean contaminated surface thoroughly.

**Prevention of secondary hazards** Clean contaminated objects and areas thoroughly observing environmental regulations.

### 6.4. Reference to other sections

**Reference to other sections** See section 8 for more information. See section 13 for more information.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

**Advice on safe handling** Ensure adequate ventilation.

**General hygiene considerations** Follow universal and standard precautions for handling potentially infectious materials.

### 7.2. Conditions for safe storage, including any incompatibilities

**Storage Conditions** Store according to product and label instructions.

### 7.3. Specific end use(s)

**Risk Management Methods (RMM)** The information required is contained in this Safety Data Sheet.

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

#### Exposure Limits

| Chemical name      | European Union | Austria                  | Belgium | Bulgaria                    | Croatia |
|--------------------|----------------|--------------------------|---------|-----------------------------|---------|
| Urea<br>57-13-6    | -              | -                        | -       | TWA: 10.0 mg/m <sup>3</sup> | -       |
| Chemical name      | Cyprus         | Czech Republic           | Denmark | Estonia                     | Finland |
| Sodium bicarbonate | -              | TWA: 5 mg/m <sup>3</sup> | -       | -                           | -       |

|                                |         |                               |             |                           |                           |
|--------------------------------|---------|-------------------------------|-------------|---------------------------|---------------------------|
| 144-55-8                       |         | Ceiling: 10 mg/m <sup>3</sup> |             |                           |                           |
| Chemical name                  | Ireland | Italy MDLPS                   | Italy AIDII | Latvia                    | Lithuania                 |
| Sodium chloride<br>7647-14-5   | -       | -                             | -           | TWA: 5 mg/m <sup>3</sup>  | TWA: 5 mg/m <sup>3</sup>  |
| Sodium bicarbonate<br>144-55-8 | -       | -                             | -           | TWA: 5 mg/m <sup>3</sup>  | -                         |
| Urea<br>57-13-6                | -       | -                             | -           | TWA: 10 mg/m <sup>3</sup> | TWA: 10 mg/m <sup>3</sup> |

**Biological occupational exposure limits**

This product, as supplied, does not contain any hazardous materials with biological limits established by the region specific regulatory bodies.

**Derived No Effect Level (DNEL)** No information available.

**Predicted No Effect Concentration (PNEC)**

**8.2. Exposure controls****Personal protective equipment**

**Eye/face protection** Wear safety glasses with side shields (or goggles).

**Hand protection** Wear suitable gloves.

**Skin and body protection** Wear suitable protective clothing.

**Respiratory protection** No protective equipment is needed under normal use conditions. If exposure limits are exceeded or irritation is experienced, ventilation and evacuation may be required.

**General hygiene considerations** Follow universal and standard precautions for handling potentially infectious materials.

**Environmental exposure controls** No information available.

## SECTION 9: Physical and chemical properties

**9.1. Information on basic physical and chemical properties**

**Physical state** Solid  
**Appearance** powder or cake, lyophilised  
**Colour** amber  
**Odour** Slight.  
**Odour threshold** No information available

| <u>Property</u>                                | <u>Values</u>     | <u>Remarks • Method</u> |
|------------------------------------------------|-------------------|-------------------------|
| <b>Melting point / freezing point</b>          | No data available | None known              |
| <b>Initial boiling point and boiling range</b> | No data available | None known              |
| <b>Flammability</b>                            | No data available | None known              |
| <b>Flammability Limit in Air</b>               |                   | None known              |
| <b>Upper flammability or explosive limits</b>  | No data available |                         |
| <b>Lower flammability or explosive limits</b>  | No data available |                         |

## 9.2. Other information

### 9.2.1. Information with regards to physical hazard classes

Not applicable

### 9.2.2. Other safety characteristics

No information available

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

Reactivity No information available.

### 10.2. Chemical stability

Stability Stable under normal conditions.

#### Explosion data

Sensitivity to mechanical impact None.

Sensitivity to static discharge None.

### 10.3. Possibility of hazardous reactions

Possibility of hazardous reactions None under normal processing.

### 10.4. Conditions to avoid

Conditions to avoid None known based on information supplied.

### 10.5. Incompatible materials

Incompatible materials None known based on information supplied.

### 10.6. Hazardous decomposition products

Hazardous decomposition products None known based on information supplied.

## SECTION 11: Toxicological information

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### Information on likely routes of exposure

#### Product Information

|                     |                                                                                                |
|---------------------|------------------------------------------------------------------------------------------------|
| <b>Inhalation</b>   | Specific test data for the substance or mixture is not available.                              |
| <b>Eye contact</b>  | Specific test data for the substance or mixture is not available.                              |
| <b>Skin contact</b> | Specific test data for the substance or mixture is not available. Causes mild skin irritation. |
| <b>Ingestion</b>    | Specific test data for the substance or mixture is not available.                              |

**Symptoms related to the physical, chemical and toxicological characteristics**

**Symptoms** Prolonged contact may cause redness and irritation.

**Acute toxicity****Numerical measures of toxicity**

No information available

The following values are calculated based on chapter 3.1 of the GHS document

**ATEmix (oral)** 14,699.50 mg/kg

**ATEmix (dermal)** 34,444.80 mg/kg

**Component Information**

| Chemical name                                        | Oral LD50            | Dermal LD50              | Inhalation LC50         |
|------------------------------------------------------|----------------------|--------------------------|-------------------------|
| Sodium chloride                                      | = 3550 mg/kg ( Rat ) | > 10000 mg/kg ( Rabbit ) | > 42 mg/L ( Rat ) 1 h   |
| 1-Piperazineethanesulfonic acid, 4-(2-hydroxyethyl)- | > 2000 mg/kg ( Rat ) | > 2000 mg/kg ( Rat )     | -                       |
| Sodium bicarbonate                                   | = 4220 mg/kg ( Rat ) | -                        | -                       |
| Urea                                                 | = 8471 mg/kg ( Rat ) | -                        | -                       |
| L-Lactic acid                                        | = 3730 mg/kg ( Rat ) | > 2000 mg/kg ( Rabbit )  | > 7.94 mg/L ( Rat ) 4 h |

**Delayed and immediate effects as well as chronic effects from short and long-term exposure**

**Skin corrosion/irritation** Classification based on data available for ingredients. Causes mild skin irritation.

**Serious eye damage/eye irritation** No information available.

**Respiratory or skin sensitisation** No information available.

**Germ cell mutagenicity** No information available.

**Carcinogenicity** No information available.

**Reproductive toxicity** No information available.

**STOT - single exposure** No information available.

**STOT - repeated exposure** No information available.

Aspiration hazard No information available.

### 11.2. Information on other hazards

#### 11.2.1. Endocrine disrupting properties

Endocrine disrupting properties Not applicable.

#### 11.2.2. Other information

Other adverse effects No information available.

## SECTION 12: Ecological information

### 12.1. Toxicity

Ecotoxicity The environmental impact of this product has not been fully investigated.

### 12.2. Persistence and degradability

Persistence and degradability No information available.

### 12.3. Bioaccumulative potential

Bioaccumulation

**Component Information**

| Chemical name                                        | Partition coefficient |
|------------------------------------------------------|-----------------------|
| 1-Piperazineethanesulfonic acid, 4-(2-hydroxyethyl)- | -3.85                 |
| Urea                                                 | -1.73                 |
| L-Lactic acid                                        | -0.54                 |

**12.4. Mobility in soil**

**Mobility in soil** No information available.

**12.5. Results of PBT and vPvB assessment**

**PBT and vPvB assessment** No information available.

| Chemical name                                        | PBT and vPvB assessment         |
|------------------------------------------------------|---------------------------------|
| Sodium chloride                                      | The substance is not PBT / vPvB |
| 1-Piperazineethanesulfonic acid, 4-(2-hydroxyethyl)- | The substance is not PBT / vPvB |
| Sodium bicarbonate                                   | The substance is not PBT / vPvB |
| Urea                                                 | The substance is not PBT / vPvB |
| L-Lactic acid                                        | The substance is not PBT / vPvB |

**12.6. Endocrine disrupting properties**

**Endocrine disrupting properties** Not applicable.

**12.7. Other adverse effects**

No information available.

## SECTION 13: Disposal considerations

**13.1. Waste treatment methods**

**Waste from residues/unused products** Dispose of in accordance with local regulations. Dispose of waste in accordance with environmental legislation.

**Contaminated packaging** Do not reuse empty containers.

## SECTION 14: Transport information

**IATA**

|                                   |                |

| Acute inhalation toxicity - vapour                              | Calculation method |
| Acute inhalation toxicity - dust/mist                           | Calculation method |
| Skin corrosion/irritation                                       | Calculation method |
| Serious eye damage/eye irritation                               | Calculation method |
| Respiratory sensitisation                                       | Calculation method |
| Skin sensitisation                                              | Calculation method |
| Mutagenicity                                                    | Calculation method |
| Carcinogenicity                                                 | Calculation method |
| Reproductive toxicity                                           | Calculation method |
| STOT - single exposure                                          | Calculation method |
| STOT - repeated exposure                                        | Calculation method |
| Acute aquatic toxicity                                          | Calculation method |
| Chronic aquatic toxicity                                        | Calculation method |
| Aspiration hazard                                               | Calculation method |
| Ozone                                                           | Calculation method |
| Health hazards not otherwise classified (HHNOC)                 | Calculation method |
