Mini-PROTEAN TGX and TGX Stain-Free Precast Gels

Beyond Ready Gels

The Mini-PROTEAN TGX and TGX Stain-Free (Tris-Glycine eXtended) Gels deliver accelerated run times with an extended shelf life of 12 months

- Direct drop-in for Laemmli system
- Inexpensive buffer system, low running costs
- Run times as short as 15 min
- Transfer in as little as 8 min
- Accurate molecular weight estimation
- Easy-to-open cassette for faster downstream processing and better gel handling
- Compatible with Mini-PROTEAN Tetra and Mini-PROTEAN 3 Dodeca systems

Side-by-side comparison of migration patterns of broad range SDS-PAGE unstained standards run on Ready Gel precast gels (■) and Mini-PROTEAN TGX and TGX Stain-Free gels (■).
